About Me.

I am a highly passionate web developer with a broad array of skills who is always willing to go the extra mile to make a project great. I am looking to join a team of other talented creatives building unique and elegant web-based solutions.

Experience

WEBMASTER/WEB-DEVELOPER, SKEIE'S JEWELERS – APRIL 2021 - PRESENT

Primary: Design, develop and test layouts, features and functionality to ensure compatibility and usability across browsers and devices with a focus on aesthetics. Employ search engine optimization practices to increase web visibility and engagement. Analyze analytical data to better understand user intent and measure outcomes for ongoing optimization.(HTML5, CSS3, JavaScript, jQuery, Bootstrap4, Shopify Liquid, Google Ads)

Secondary: Photograph & edit high quality product images and create corresponding website product page. Manage digital assets and services from vendors and other third parties.(Photoshop, Illustrator, Ortery Lightbox)

FRONT END WEB DEVELOPER, ELECTRONIC LITERATURE ORGANIZATION – SEPT. 2020 - DEC. 2020

A contract project for my senior capstone course. Myself and a team of four other web developers created the template pages for the Electronic Literature Organization's digital repository of over 2,100 works held in 26 collections. (HTML5, CSS3, Bootstrap4, XD, Github)

NBA-TODAY, PERSONAL PROJECT – JAN. 2020

A single page web application that integrates API data to track the day's current NBA game scores.(React, HTML5, CSS3, JavaScript)

Education

Washington State University Vancouver – Digital Technology & Culture (minor in Business Administration), 2020
